

This week: learn, apply, explain

Five classes / 350 minutes / no formal IA minutes

Use Student OS Assignments to find IBDS. Read the assigned section and use the chapter teaching deck. Work on paper before opening a simulation. Independent checks and assessments use your own reasoning with agreed access arrangements.

Monday 5 October / ibds-26-s03-d10

Learn and practise: Deck 1: components, representations, search/sort/filter. TraceLab follows hand work.

Evidence: Original trace. Separate ibds-26-s02-d08 attempt 2, /8, 20 minutes. Preserve attempt 1.

5 retrieval + 12 teaching + 10 guided + 15 independent trace + 20 retry + 8 feedback = 70

Repair: identify the earliest inaccurate step or unsupported claim; keep the first attempt, correct after feedback, then try a fresh example.

Tuesday 6 October / ibds-26-s03-d03

Learn and practise: Deck 1: ranking and changed weights; Deck 2: objectives and bias. Tune the Feed follows paper calculations.

Evidence: Original Loopline ranking and explanation; separate P1 practice with feedback.

5 retrieval + 12 teaching + 30 guided/lab + 15 independent + 8 feedback = 70

Repair: identify the earliest inaccurate step or unsupported claim; keep the first attempt, correct after feedback, then try a fresh example.

Wednesday 7 October / ibds-26-s03-d04

Learn and practise: Deck 3: big data and collection; Deck 2: feedback, proxies and black boxes. Roundtable follows a hand trace.

Evidence: 3.1 four-response chapter check; original feedback/data-choice explanation.

5 retrieval + 12 teaching + 24 guided + 6 chapter check + 15 independent + 8 feedback = 70

Repair: identify the earliest inaccurate step or unsupported claim; keep the first attempt, correct after feedback, then try a fresh example.

Thursday 8 October / ibds-26-s03-d05

Learn and practise: Deck 2: transparency, accountability, source limits and judgement.

Evidence: Original ten-item /12 quiz and correction; 3.2 chapter check; separate 15-minute independent P1 paragraph, no extra quiz marks.

17 quiz/correction + 8 teaching + 19 inquiry + 6 chapter check + 15 P1 + 5 transition = 70

Repair: identify the earliest inaccurate step or unsupported claim; keep the first attempt, correct after feedback, then try a fresh example.

Friday 9 October / ibds-26-s03-d06

Learn and practise: Deck 4: business, work, revenue and consequences; source comparison and partial P2 practice.

Evidence: 4.2 chapter check; original sourced impact-to-implication chain and changed-case explanation.

5 retrieval + 12 teaching + 24 inquiry + 6 chapter check + 15 independent + 8 feedback = 70

Repair: identify the earliest inaccurate step or unsupported claim; keep the first attempt, correct after feedback, then try a fresh example.

Submit and reflect

Use only the quiz variant assigned by your teacher when it is released. The existing quiz has eight MC and two teacher-reviewed short responses. Chapter checks are formative supplements; local exports are not Google submissions. The dedicated chapter knowledge/reflection Form is prepared for review, not yet created.

Thursday registered quiz versions: A / B / C / D

Student OS: use My blog for the evidence, correction, support/independence and next target. Choose the teacher audience and Post to teacher when asked to share. Return through My progress or Review list for explicitly released feedback. Opening a link does not send work.

Later return: Oct 13 source synthesis; Oct 14 independent redesign. If first instruction needs more time, defer unscored P2 stretch work rather than shorten the scored retry/quiz. All timings remain unpiloted.
